

ETB-GLI-03

1 Channel Twisted Video Ground Loop Isolator for CCTV

Product Description

- BNC male to terminal block with 15cm mini coax cable
- Passive Type
- No power need
- Bandwidth 20Hz—10MHz +0/-3dB
- Prevents video-signal distortion caused by video ground loops
- Eliminates picturetearing, cross talk and rolling
- Prevents power cables laid by other interfering with the CCTV system

Type	Twisted Ground Loop Isolator
Insertion loss	0.5db
Frequency response	20Hz—10MHz (+0/-3db)
Input Resistance	75 Ohm
Output Resistance	100 Ohm
Isolation Voltage	600VDC(Min)
Insulation resistance	100 MOhm
Transient Voltage suppressors	12 Vrms
Cable length	15cm
Shell Material	ABS
Color	Black
Weight	68g
Dimension	72mm*28mm*22mm

The Video Ground Isolator should be installed where runs of video cable are known to have ground loops. It must be installed in the video cable that has come directly from the camera, but before the cable has been connected to anything else.

If several video cameras come from the same area, fix a Video Ground Isolator in every cable, or a ground loop will still remain.
