

ETC-SC205

100 Meters red/black multipolar cable in PVC 20 AWG 2 x 0.5 mm²

Product Description

- Two-tone colored outer flexible sheath
- CCA cable Copper plated
- Bipolar cable: 2 x 0.5 mm²
- Color: Red/Black
- Coil length: 100 meters

Red and Black divisible flexible flat cables for general application. The external sheath is polarized with a red conductor and the other black for an easier installation.

Cable type	Multipolar
Number of conductors	2
Conductor section	2 * 0.50 mm ² (20 AWG)
Insulation material	PVC
Minimum operating temperature	-15°C
Maximum operating temperature	+70°C
Sheath color	Black/Red
Sheath material	PVC
Rated voltage	250V
Conductor material	Copper plated aluminium
Length	100 m
